**WORLD'S #1
NUDE
ART
MAGAZINE**

There is a fine line, between the edgy art that VOLO showcases and the big bad world of porn... Truth to be told, we continuously toe that line in a way where we can give the most independence to our artists while keeping our magazine at the pinnacle of artistic expression.

How do we do it? All you have to do is talk to some of our photographers... And they will tell you the lengths that the VOLO team goes to make sure that every photographers work is showcased in the best possible way. Editing content, working with them to define, shoot and re-shoot pictures till it fits the weird and unique slot of 'Truly VOLO'. This effort and the results make me personally proud of our contribution to the nude art scene at a global level. We have discovered innumerable artists who have not only delivered great content, but improved their work immensely under the watchful eyes of the team here at VOLO Magazine.

There are a lot of great photographers featured in this issue, but I would like to take a moment to talk about a special artist, someone whose career as a photographer has spanned over 30 years... Someone who has done it all on the biggest stage and now has embarked on a journey of art photography. I would like to welcome Anthony Neste to the VOLO Family. Anthony's passion for his work is unparalleled and we at VOLO are very excited to partner with him in many ways to further his photography and our magazine together like a team sport.

The cover of this issue is shot by none other than Cam Attree, the Australian grandmaster. Seven more incredibly talented photographers present their work in this issue.

I also want to announce the VOLO LIST. A special issue which we will be releasing in 2015, which will list and profile the TOP 100 art nude photographers alive today!

The only question now is...ARE YOU ON THE LIST?

Enjoy the issue.

THE MODEL

LILI

Hello VOLO readers,
My name is Lee Tattar and I am from Ukraine.

I'm 26 years old and I am working as a model for over 6 years. I have a pretty big portfolio and I have had the chance to work with many great photographers. Recently I have also started shooting images as a photographer.

Some people are thinking I am a crazy... But I like my life and I live outside the box and inside the frame.

PHOTOGRAPHER

JACQUES RATTAZ

Jacques Rattaz is one of VOLO magazine's most reliable contributing artists. First featured in VOLO #9, Jacques has brought everything from nature shoots, high glamour, extreme body art to first time nude models to the pages of VOLO Magazine. Jacques is an associate photographer, teacher and manager of ETAP Sarl (Technical school and photography agency based in Gland, Switzerland), mainly in charge of the fashion and studio photography part of the school activities.

When asked about his photographic inspirations and passions, Jacques said "*From a technical point of view I mainly learnt by myself, reading monthly magazines, buying some books and practicing a lot, trying to break the rules. I also bought a lot of photographer's books and, for each photograph, I always tried to define what I liked or disliked, even for the pictures of my favorite photographers (Jean-Loup Sieff, Lucien Clergue, Steve Mc Curry, Helmut Newton are the main ones). I like the contact with people, I don't easily find inspiration in front of a landscape. As in front of an apple, two lemons and some nuts on a wooden table, I have difficulties exchanging opinions with them :) Of course sometimes I have to do these kind of shots in order to illustrate our courses or to demonstrate to our students.*"

About this photoshoot for VOLO, Jacques says "*I frequently work with the models of Phototours-Ukraine Agency (<http://www.phototours-ukraine.com>) as they are very professional, hard workers and their tours are always very well organized by Oksana. This summer they had the great idea to organize a workshop in Switzerland (very close to my location) in a contemporary house with a great view on the lake of Geneva. Just a dream for a Photographer: great models and great location!*

Thanks to Viktoriya and Lili for the great images they gave to me. I got exactly what I was expected. They are fashion, sensual and with a touch of eroticism coming from their eyes and expressions. Thank you also to Oksana for the perfect organisation and for the furs."

THE MODEL

VICTORIYA

Hi VOLO readers,

My name is Viktoriya and I am 29 years old. I began my model career very late at the age of 26. Actually I never dreamed of becoming a model. However, one day, my friend convinced me to pose nude for an art project. That shoot got me very interested and inspired about nude art.

A few months later we sent some pictures of myself to a PLAYBOY contest and wonder of wonders, I took the first place! My popularity, as a model, quickly grew and it became a profession for me.

Now I work as a model in Ukraine and all over Europe.
Super excited to be in VOLO. It's a magazine with a class of its own.

Love to all
Victoriya

THE MODEL

MELISSA JEAN

Hey Volo readers, I am Melissa Jean.

I have been modeling on and off since 2004 and have been traveling full time since 2011.

I've had two Playboy covers and the bulk of my work has been lingerie and glamour nude, although I started out as a fine art model and really enjoy shooting fashion too. I enjoy being versatile, it keeps my job interesting. I've modeled in the USA, UK, Germany, Italy, and Canada. There are only 4 US states I have not been to. I want to go everywhere, man. I'm always planning my next adventure to explore places I've never been to, my family took us to a lot of places when we were kids so it's just part of my nature. My portfolio has really came a long way in the last few years, and I've been fortunate to work with some very talented photographers.

It was really cool working with Shauntia, I've never been photographed by another traveling model like myself, and her great talent shines just as bright on both sides of the camera.

Excited to show our work to everyone!

THE MODEL

DASHA (The Green Eyed Goddess)

Hi everyone, I'm Dasha aka GreenEyed Goddess, a full time freelance model living in Salt Lake City, Utah. I'm a full blooded Russian, a healthy food addict, a world traveler, an outdoors junkie and a devoted bookworm. But above all I am a true dreamer.

Right now I'm absolutely in love with my modeling career. What's not to love? I get to travel to the most beautiful locations in the country (though I'm hoping to start traveling and working more internationally!) and work with all sorts of passionate creative people, while adding more beauty to this already gorgeous world.

I am definitely a complex creature, and my work allows me to express my inner passions in front of the camera. Fashion, glamour and art nudes are my specialty, although I regularly get booked for fitness, beauty and commercial work as well. I believe in living life fully and with passion, and modeling helps me spice things up with new adventures and unique projects.

My job as a model is to seduce, amuse and entertain, and I'm beyond overjoyed to do just that on the pages of the number one art nude magazine in the world!

RUNWAY READY HAIR

With runway season in full swing in the fashion capitals of the world, we are getting to see the latest in mens runway trends every day. We picked a hair look that will give the VOLO Man an easy to maintain, power style that works at the office & at the club.

THE QUIFF RELAXED SWEEP BACK LOOK

The quiff is a classic, sophisticated and low maintenance cut, making it a fail-safe option for men of all ages.

The word "quiff" may derive from the Hindi word "quaff" meaning hair slicked back. The etymology of the word is uncertain but may derive from the French word "coiffer" which can mean either a hairstyle or, going further back, the mail knights wore over their heads and under their helmets. The modern-day quiff includes plenty of hair at the front of the top of the head, receding into shorter hair at the back with a trimmed back and sides.

HOW TO GET THE LOOK?

Step 1. Start with freshly washed hair. Before you attempt to do a quiff hairstyle, it's important to wash your hair to remove any oils and add some volume.

ALISHA LOVE

THE MODEL

ALISHA LOVE

Hi VOLO readers, I am Alisha, a 23 year old model from Queensland, Australia.

I did my first ever photo shoot with the incredible Cam Attree just as I turned 18 back in 2009 and he gave me a confidence that I had never felt before in my life and since then I've been hooked on this drug called "the human body". I'm addicted to appreciating the body and the many beautiful shapes it can make. I feel compelled to help everyone and anyone I can find out how beautiful they are and how confident they should be in their unique one-of-a-kind body.

I grew up in the bush in Queensland and would describe myself as a very open minded, easy-going, energetic rainbow. I take pride in being "All Natural" and I rarely wear make up for this very reason. People's flaws is what makes that person perfect and beautiful. I got bullied most of my life for looking boyish, being flat chested and being more interested in playing sports with the boys than playing barbies with the girls. This gender out casting made me the strong headed person I am today and the message I spread is that no matter who you are, where you have come from or how others perceive you, YOU are still beautiful in your own way.

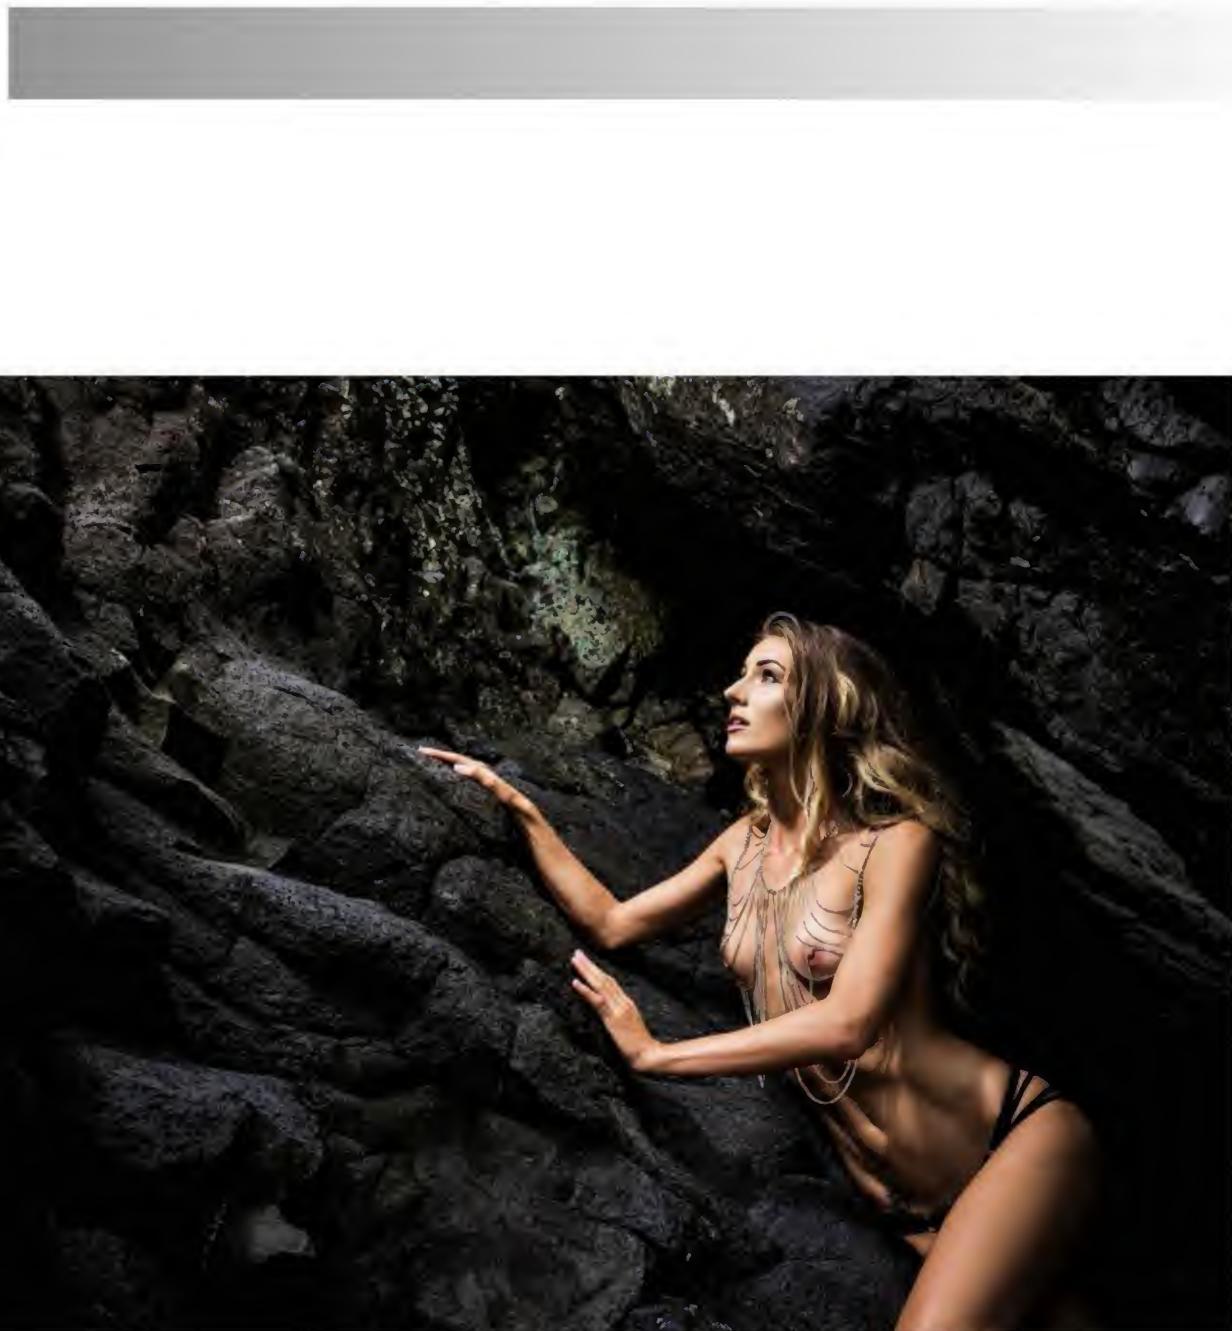

I hadn't taken myself seriously as a model until early in 2014 when I started getting an incredible amount of opportunities to showcase myself as a nude model from people around the world seeing my social media and believing in me so much. This has created the social media hashtag #TeamLove.

I'm super excited that my modelling journey has lead to me being featured in VOLO magazine and I hope it won't be the last!

COVER MODEL

Interview

VOLO: Hi Alisha, how are you doing today?

AL: I'm doing really well today thank you.

VOLO: This is your first set in VOLO and you are debuting as the cover model for the worlds #1 art nude magazine, how do you feel about this news?

AL: I'm pretty stoked to say the least! I've been using your images as constant inspiration for my own photoshoots now I will be one of those girls I've admired so much, that's an amazing feeling.

VOLO: Tell us a little about the shoot- We love Cam's work, have you worked together before?

AL: This shoot was just before a massive storm hit the area and it was sprinkling with rain the whole time we were shooting. It was one of the coldest days we had in a while and I had to stop when my skin colour started going blue from being so cold haha. There was a group of guys watching the whole time and even a lady came over with her son to meet me as they had never met a nude model before and that was a little bit unorthodox but happy to meet a fan. Cam was the first person I ever did a photoshoot with back when I had only just turned 18 (now 23) and we have remained good friends and have collaborated with each other ever since and now here we are on the cover of VOLO <3

VOLO: Tell us a little more about yourself, is modeling your profession or a hobby? How long have you been modeling?

AL: I started doing photoshoots when I was 18 and have done them for my own enjoyment and have never really taken myself seriously as a model until last year when I realised I had a large following on social media for my healthy & honest lifestyle and have people messaging me from time to time telling me how much I inspire them. So I have used my images to promote healthier ways of living and to promote self expression. My main focus though is my beautiful animals and my animal-care company.

VOLO: Have you always modeled Nude or are you also a fashion model? Have you modeled for any big campaigns or brands?

AL: I have mainly done fashion & glamour modelling before but always did nude photoshoots in secret but was too insecure within myself to show anyone. This past year I have "Come out of the closet" as such and have blasted my nude pictures everywhere. I learnt that as long as I love myself then there's no one that can make me feel any different. I think the human form is beautiful and I love how freeing it is to say "Here I am, all of me, scars and all, if you don't like it then don't look". Last year I got the amazing opportunity to be flown to Bali to shoot for Playboy!

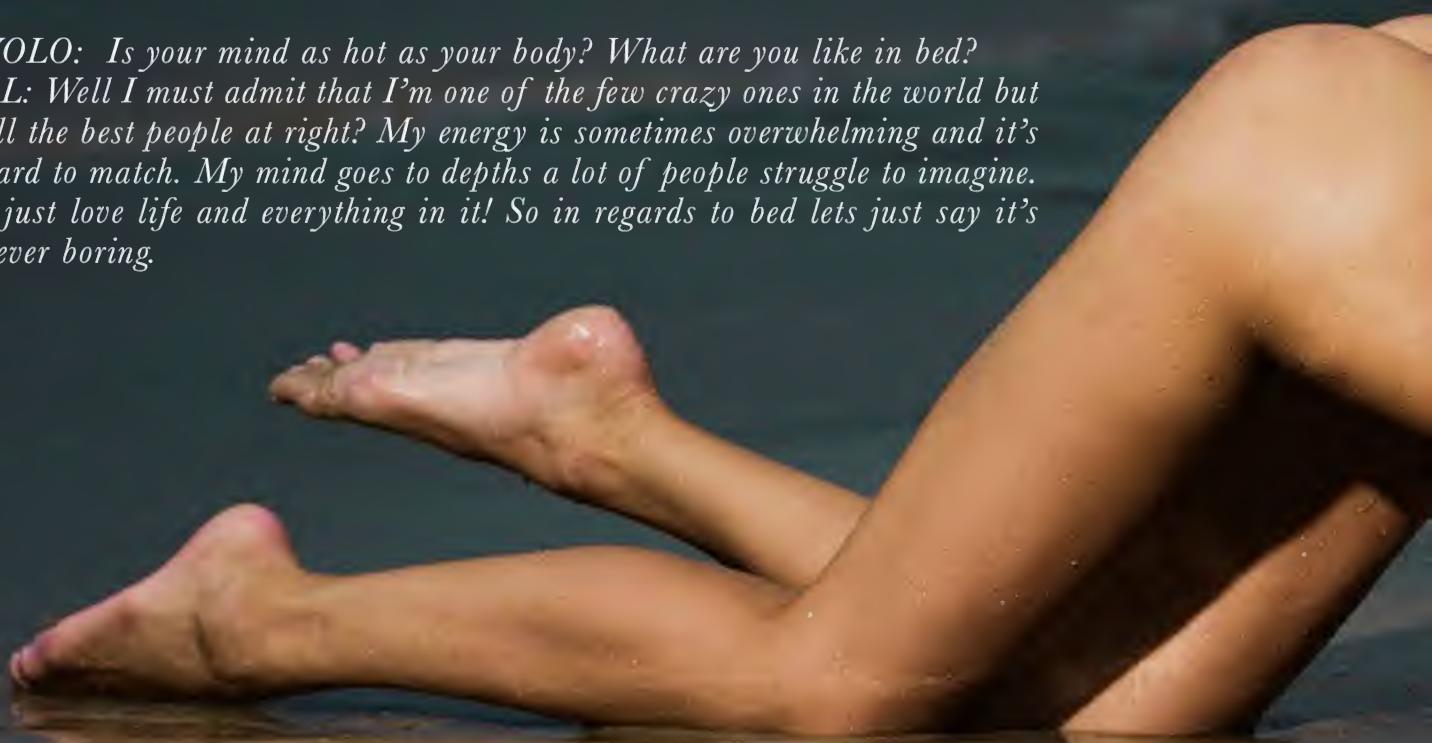

Interview

VOLO: Tell us about your personal life, are you single? Married? Engaged? The fans are dying to know!

AL: I am happily in a relationship of 3 years with my tall, dark and handsome best friend named Matt Nicholls and we have the 2 most cutest border collie dogs Bandit & Luna and together we are one big happy family! Hopefully engaged soon.. I will keep you posted hehe

VOLO: Is your mind as hot as your body? What are you like in bed?

AL: Well I must admit that I'm one of the few crazy ones in the world but all the best people at right? My energy is sometimes overwhelming and it's hard to match. My mind goes to depths a lot of people struggle to imagine. I just love life and everything in it! So in regards to bed lets just say it's never boring.

Interview

cont'd.

VOLO: Tell us one naughty thing nobody would be able to guess!

AL: Whenever I go out to the Clubs on the Gold Coast I always love to end the night with a nudie swim in the ocean. Probably not the safest of things to do but its so freeing and refreshing and it's one of my favourite things to do!

Love Alisha

PHOTOGRAPHER

Cam Attree was introduced to the world of VOLO in #21 as our featured photographer for the issue. This Australian genius stands amongst the greatest when it comes to shooting nudes in natural light.

Attree started his career as a landscape and wildlife photographer but very quickly realized that it would not be a commercially viable profession. He says

"It was at art college that I had my first taste of artistic nude photography. Despite being a pimple faced naive 18 year old at art college who was full of nerves, I managed to create some beautiful black and white studio nudes of one of my fellow students. I'm still very proud of those images to this day and in some ways I regret that it took me another 13 years before I did my next artistic nude shoot and really started to explore the genre. I spent the next few years working with models in my area and travelling models from other states in Australia but in 2008 I had the opportunity to work with an amazing model from the USA who was doing an Australian trip. Candace Nirvana was her name and she introduced me to the ARTnudes Network (www.figuremodels.org). An fantastic online community of like minded photographers and models who all pursue the craft of artistic nudes.

Since then I have met and worked with so many truly astounding photographers and models from all parts of the world who keep me inspired to explore, create and refine my craft. I love the challenge of working with new models and extracting the potential I see in them by creating images which they didn't think they were capable of producing. At the same time, I love being inspired by a professional art nude model who can create poses that I just didn't even think were possible."

This is Cam's first 'Set' for VOLO and its perfection landed it right on the cover of the magazine... Our salute to his genius.

MATTHEW DICKSTEIN

Matthew Dickstein is a Colorado-based photographer specializing in portrait, fashion, glamour and fine art. His work has been published in numerous magazines and has been featured in international juried exhibitions at the Center for Fine Art Photography. He is particularly proud to be among 50 international photographers chosen to participate in the "Africa Through 100 Eyes" project benefiting African hunger relief.

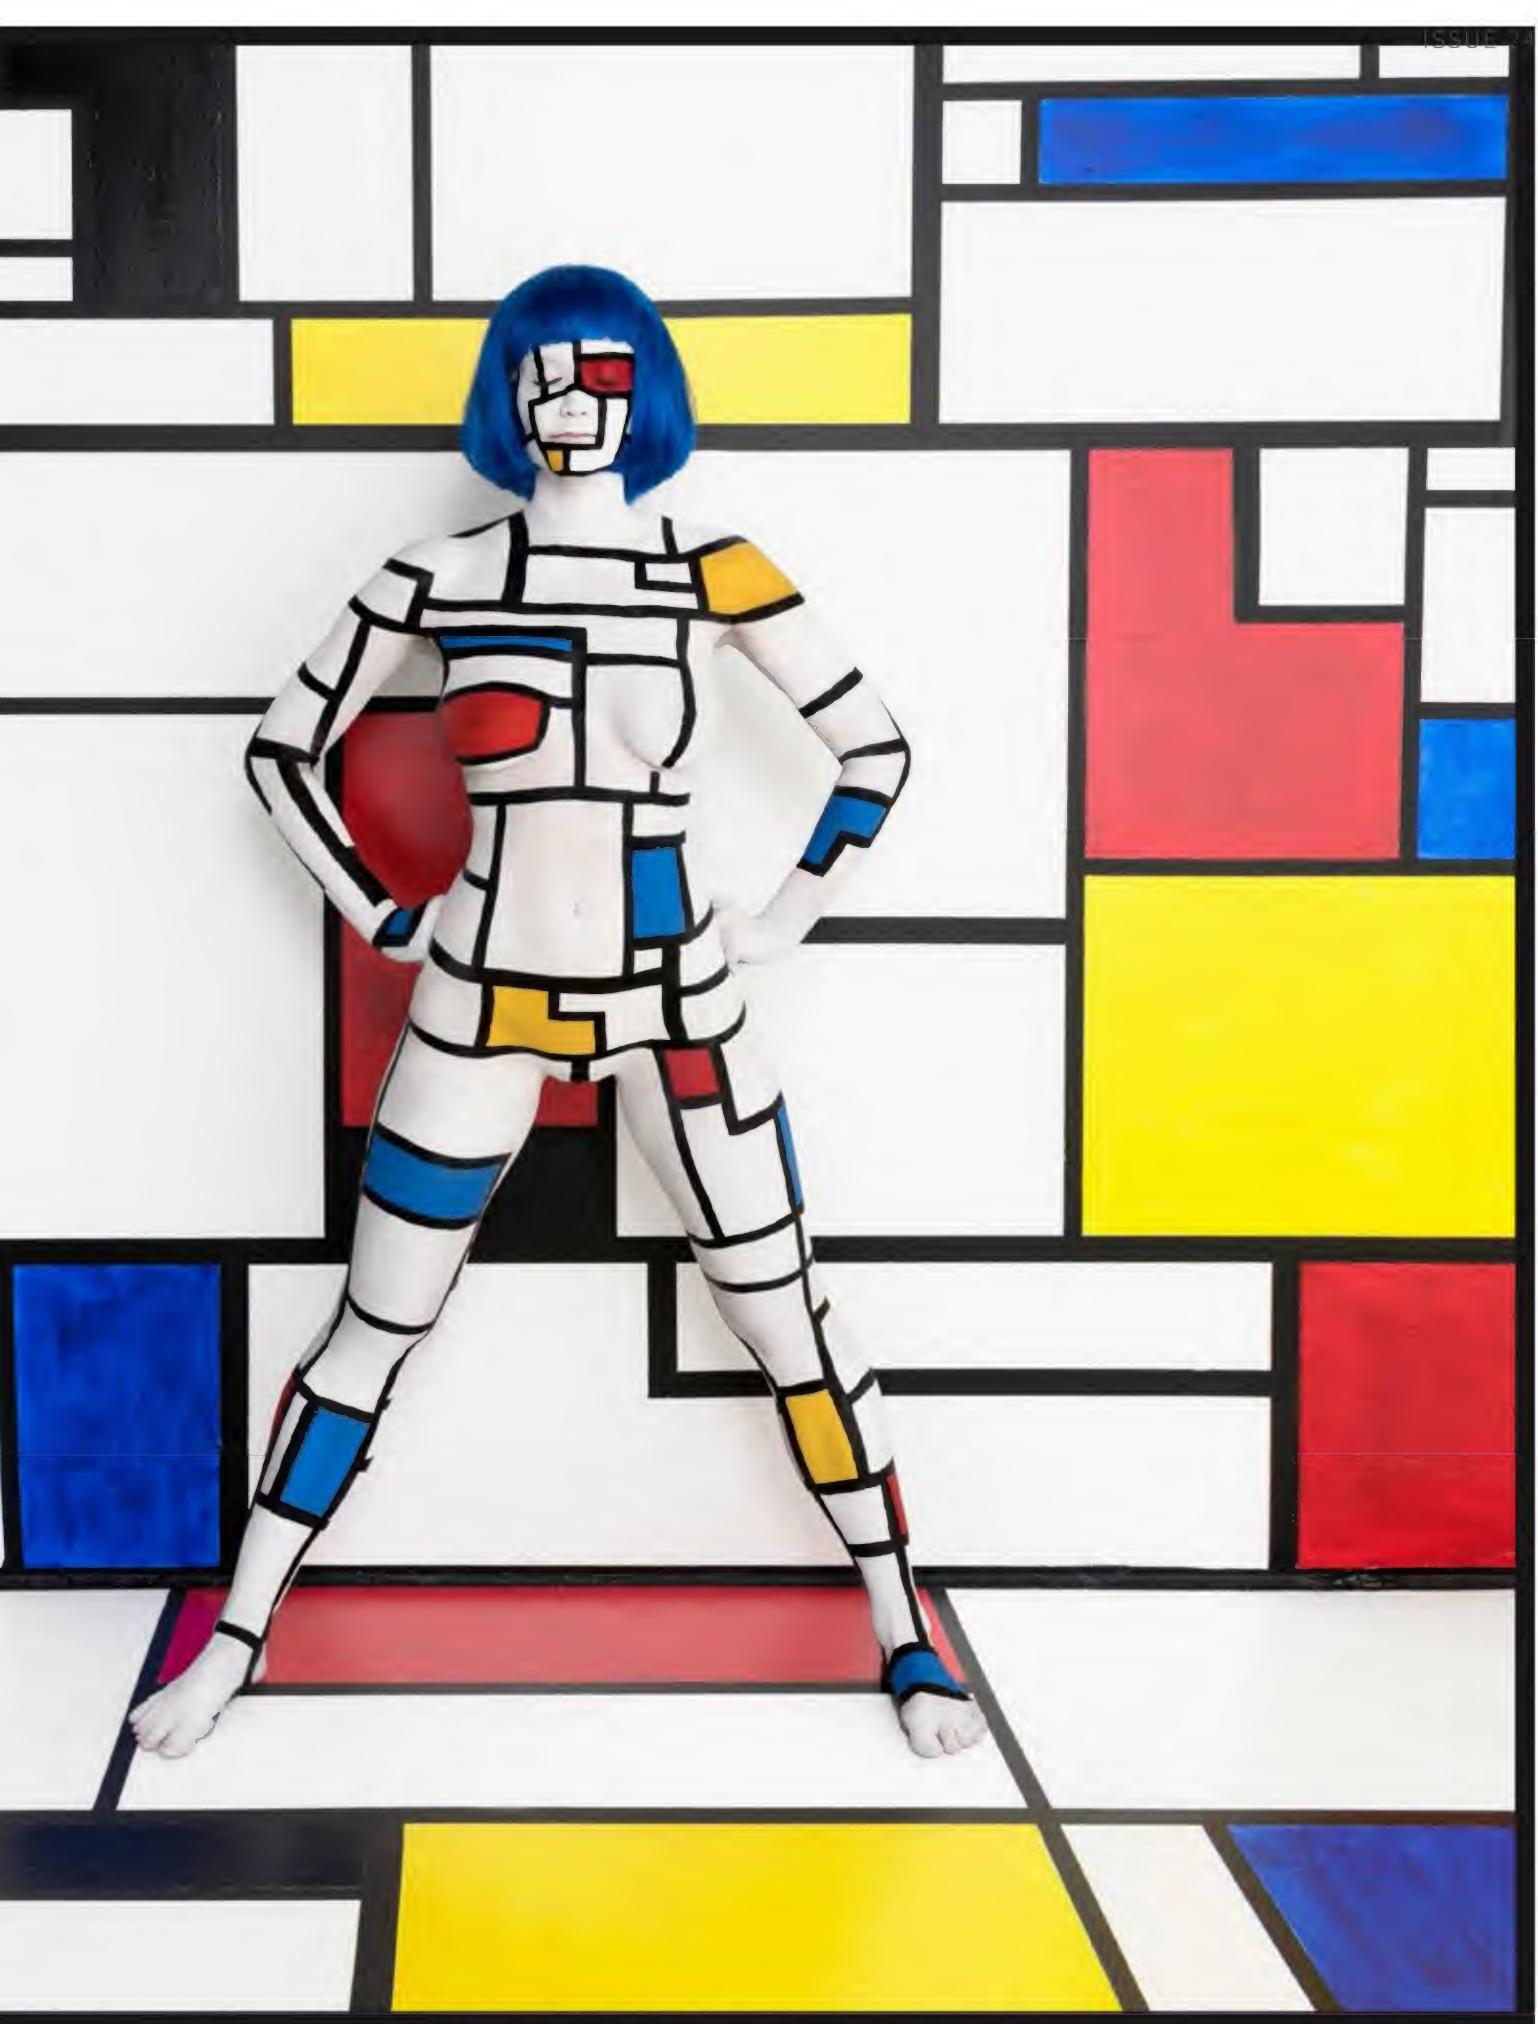

About The Body Mondrian

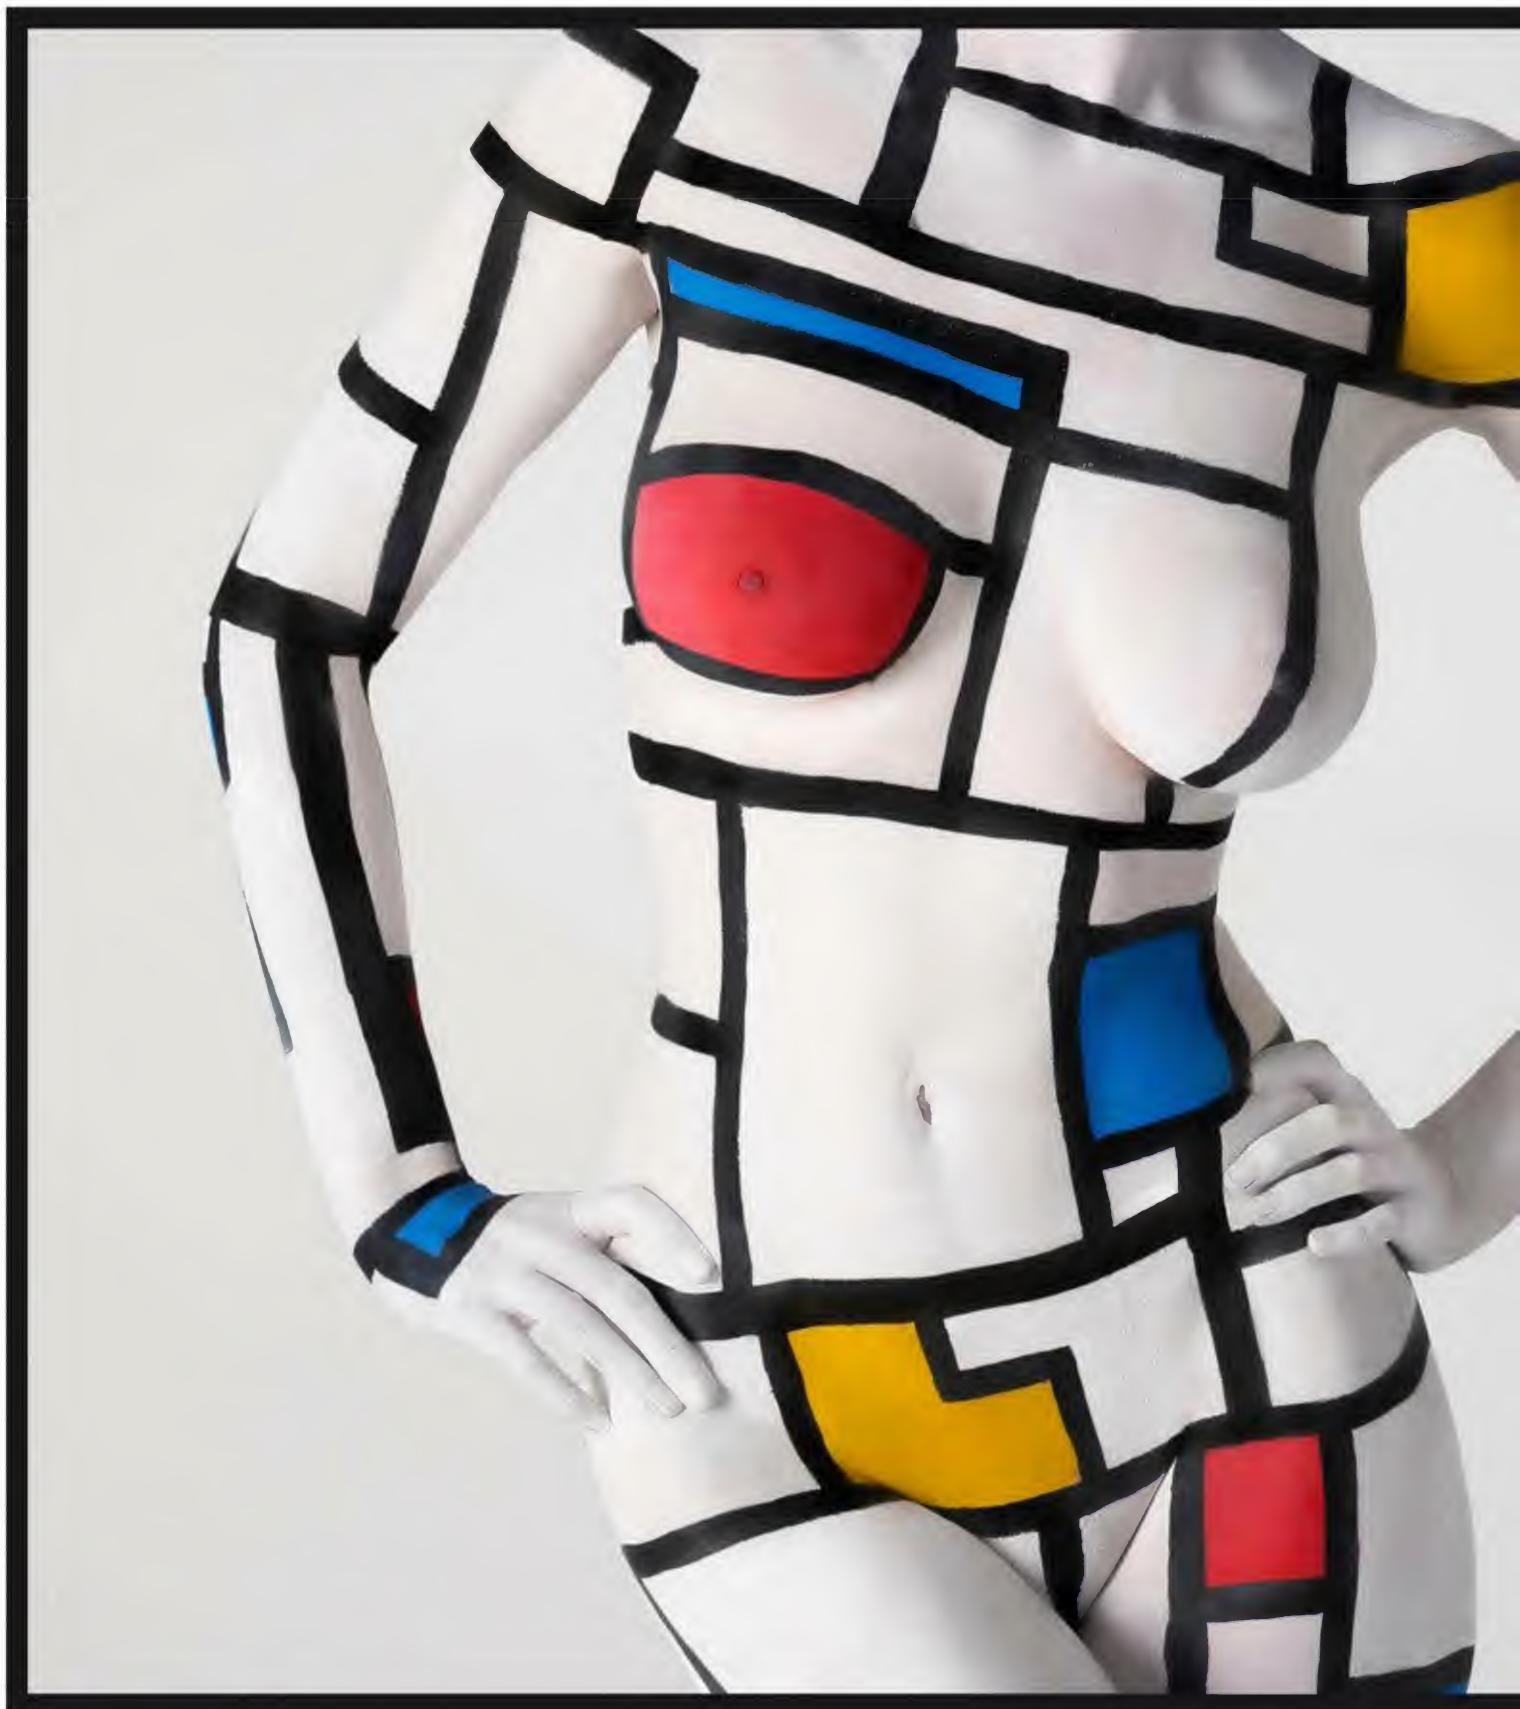

Piet Mondrian was a Dutch abstract expressionist painter who developed his signature style in the 1920's. His work was popularized during the 1960's when designer Yves Saint Laurent based his "Mondrian" dress on the artist's work. Since then, this iconic pattern of white and primary color boxes has been appeared on everything from Nike shoes to Volkswagen Beetles.

I've always loved Mondrian's work – both his original paintings and the countless adaptations. I became intrigued by the idea of representing these rigid rectangular patterns on the natural curves of the female body. Body artist Alan Anderson and I had been looking for an opportunity to collaborate and this was the perfect project. This series represents a true collaboration between artist, model and photographer. Almost 100 years after Mondrian painted his original works, I'd like to think he'd approve of my choice of canvas in this tribute to his iconic style.

The Painter: Alan Anderson is an award winning make-up artist based in Denver, Colorado. In 2011 he competed against 3000 other artists nationwide to become RAW Natural Born Artist's 2011 Make-Up Artist of the Year. In 2014 Alan was a Season 1 Contestant on a body art competition reality TV show called Skin Wars, hosted by Rebecca Romijn and judged by professionals in the industry including RuPaul. Along with body art, Alan specializes in SPFX make up. His SPFX work has been featured in several short films as well as an internationally released full feature horror film.

This shot provides ideal framing of this amazing woman's perfect form. This shot exemplifies Anthony's skill and showcases Michelle in the best possible way... All around perfection. Amazingly VOLO!

Shankha

Hi VOLO readers, I am Michelle Amara.

I'm a model, athlete, and former fitness competitor based in Orange County, California. I have been modeling for about six years now and it is one of my dearest passions.

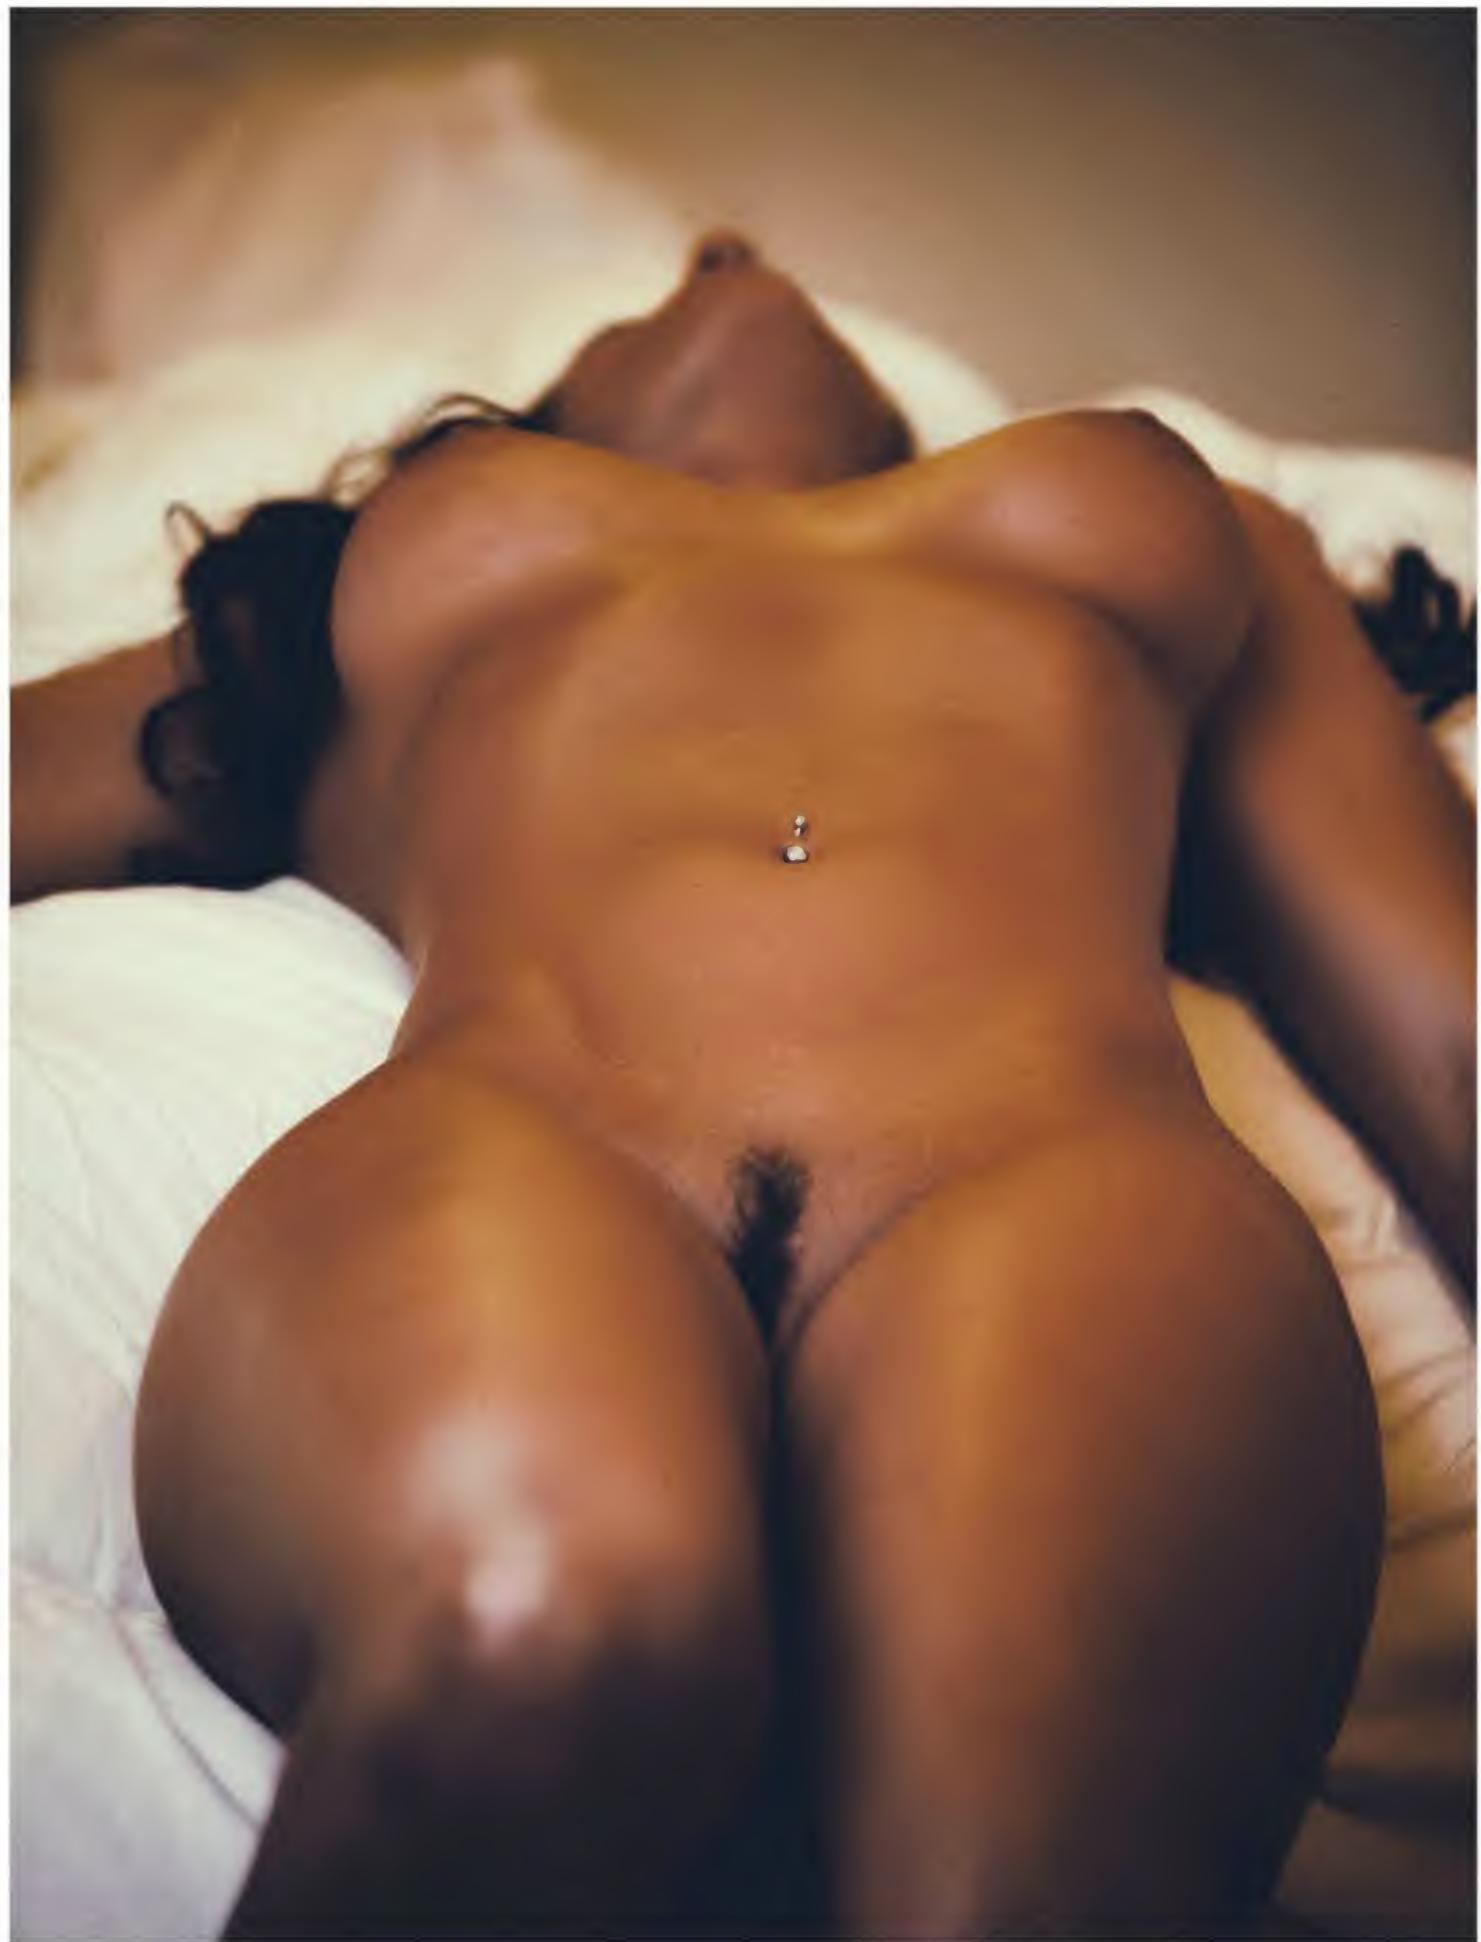

My motivation to get started in modeling came from an inner drive to create art by using the body that I embrace and the natural ability I possess. Not only did it become a part-time career all these years but more importantly my work has captivated, inspired and empowered many others.

What I love most about modeling, besides the connection I get from the viewers; is that feeling I get when I am in front of the camera. In those moments there is this raw openness, vulnerability, pure passion and freedom of expression really pours out. This is what keeps me doing what I do best.

Enjoy my VOLO shoot with Anthony, he is amazing!

A close-up photograph of a woman's face and upper body. She is lying on her back on a white bedsheet. Her eyes are closed, and she has a serene expression. A gold chain-link bracelet is visible on her right wrist. The background is blurred, showing a room with bookshelves.

ALEXANDER HUFENBACH presents a story in photos

ONE NIGHT STAND with RUBIA

VOLO IN CLOUD

PHOTOGRAPHER

ALEXANDER HUFENBACH

Born in 1976 freelance photographer Alexander Hufenbach is a self taught and passionate artist. Located in Dortmund, Germany, his career as a professional photographer started in 2007 and since then he's living his dream and passion through pictures.

For him photography isn't about technique or perfect skills, it's about being able to catch the perfct moment of time, that blink of an eye where the mgic happens and capture it in pictures.

Beauty is much more than a perfect body or the most beautiful face... he defines it with expression. His way to portray nude in an artful way is to connect with the person in front of his lens. To show the essence of the person (model) he always tries to create an image, that is filled with remembrance of THAT special moment.

Alexanders pictures are filled with soul, his model aren't displayed as objects without clothes, they're shown as proud and strong women with a confident way of eroticism.

His style is not to have a style, to stay free in his creative process and never get bored by his own work, that's why his pictures are so captivating...

THE MODEL

RUBIA

My name is Rubia and I am 23 years old. I live in the a tiny country called Belgium where I work as a dancer and a model. It is great to do the things I love as a job and make money from it. I already have 5+ years of modeling experience and after trying different genres, it became crystal clear to me that nude and glamour photography is what I really like to pose for.

Posing nude and sexy allows me to discover my femininity and to love my body. It changed the way I see the world as a young woman. I see my modeling as a way of expressing freedom and confidence, which according to me should be key values for every woman. When you look at my pictures, you may like what you see, or may not, but more importantly I hope you can see the confidence and independence I wanted to express when making the shot.

It has always big dream for me to be in international magazines, so being published in VOLO for the second time is totally awesome. Enjoy!
